

Please don't change the Indiana law that prohibits telephone solicitors from phoning our home. Those leaches are relentless.....they call very early and they call very late. I have had a soliciter call me at 7am before, when I complained to them the soliciter told me that it was 8am their time. I don't want these people phoning me....if I want a product I will research it on my own and buy it on my own. I don't need some hard selling and rude phone call from a soliciter at all hours of the day. They are so pressured to sell, that even when I tell them I am uninterested they continue with their sales pitch. I usually have to hang up on them. I will NEVER buy a product from a phone soliciter and I want my privacy!!
